

Karine Marino  
School of Creative Minds

Karine is a mother of two teenagers and a Bedford community member for seven years. She holds B.A. & M.A. degrees in E.E. and minor degree in Art History. Teaching her students how to combine analytical and creative thinking skills is her most important mission. Karine's passion is to teach creative thinking and problem solving. Karine believes teaching creative problem solving skills is a path to foster and develop innovative minds. Her personal philosophy for life is to continue learning how to be more intuitive, innovative, creative, open minded, and resourceful while passing these skills to younger generations.

She teaches math, origami, exotic intuitive cooking, knitting, crocheting, beading and gardening.
