

Karine Marino
School of Creative Minds

Karine, her husband and their two teenagers are members of the Bedford community. Karine holds B.A. & M.A. degrees in E.E. and minor degree in Art History. Teaching her students how to combine analytical and creative thinking skills is her most important mission. Karine's passion is to teach creative thinking and problem solving. Karine believes teaching creative problem solving skills is a path to foster and develop innovative minds. Her personal philosophy for life is to continue learning new skills and to teach her students to be more intuitive, observant, innovative, creative, open minded, kind, empathetic and resourceful.

Karine teaches math, origami, exotic intuitive cooking, baking, knitting, crocheting, beading, lace making, doll and puppet making.
