

ONE BITE CAN
CHANGE YOUR
LIFE

Middlesex Tick Task Force
presents

LET'S TALK ABOUT TICKS

Join us to learn more about:

TICK-BORNE DISEASE AWARENESS AND PREVENTION

Dr. Alfred de Maria, MDPH State Epidemiologist

Is Lyme disease an epidemic in our area?

Emerging diseases—Babesiosis and Anaplasmosis

These diseases are preventable—learn how to protect yourself

LANDSCAPING IDEAS TO REDUCE TICK EXPOSURE IN YOUR YARD

Kurt Upham, President, ohDeer Inc.

Safe Solutions for Deer, Tick and Mosquito Control

NEW TICK TESTING PROGRAM FOR RESIDENTS

Dr. Stephen Rich, UMass Laboratory of Medical Zoology

Have you been bitten by a tick? Depending on your town, you can submit the tick for FREE or low cost testing to see if it carries the pathogens that cause Lyme disease, Babesiosis, and Anaplasmosis

April 30, 2014 7-9 p.m.

Lincoln Schools Auditorium

Ballfield Rd, Lincoln

For more information, please contact
your local Health Department or

Lincoln Public Health Nurse Maureen Richichi at 781-259-9407

See you there?
