

Middlesex Turnpike Phase 3
Business Meeting
December 16, 2015

History: Project is last phase of a regional project initiated by the Tritown Committee

Project Limits: Shawsheen River to Manning Road – total length 1.6 miles

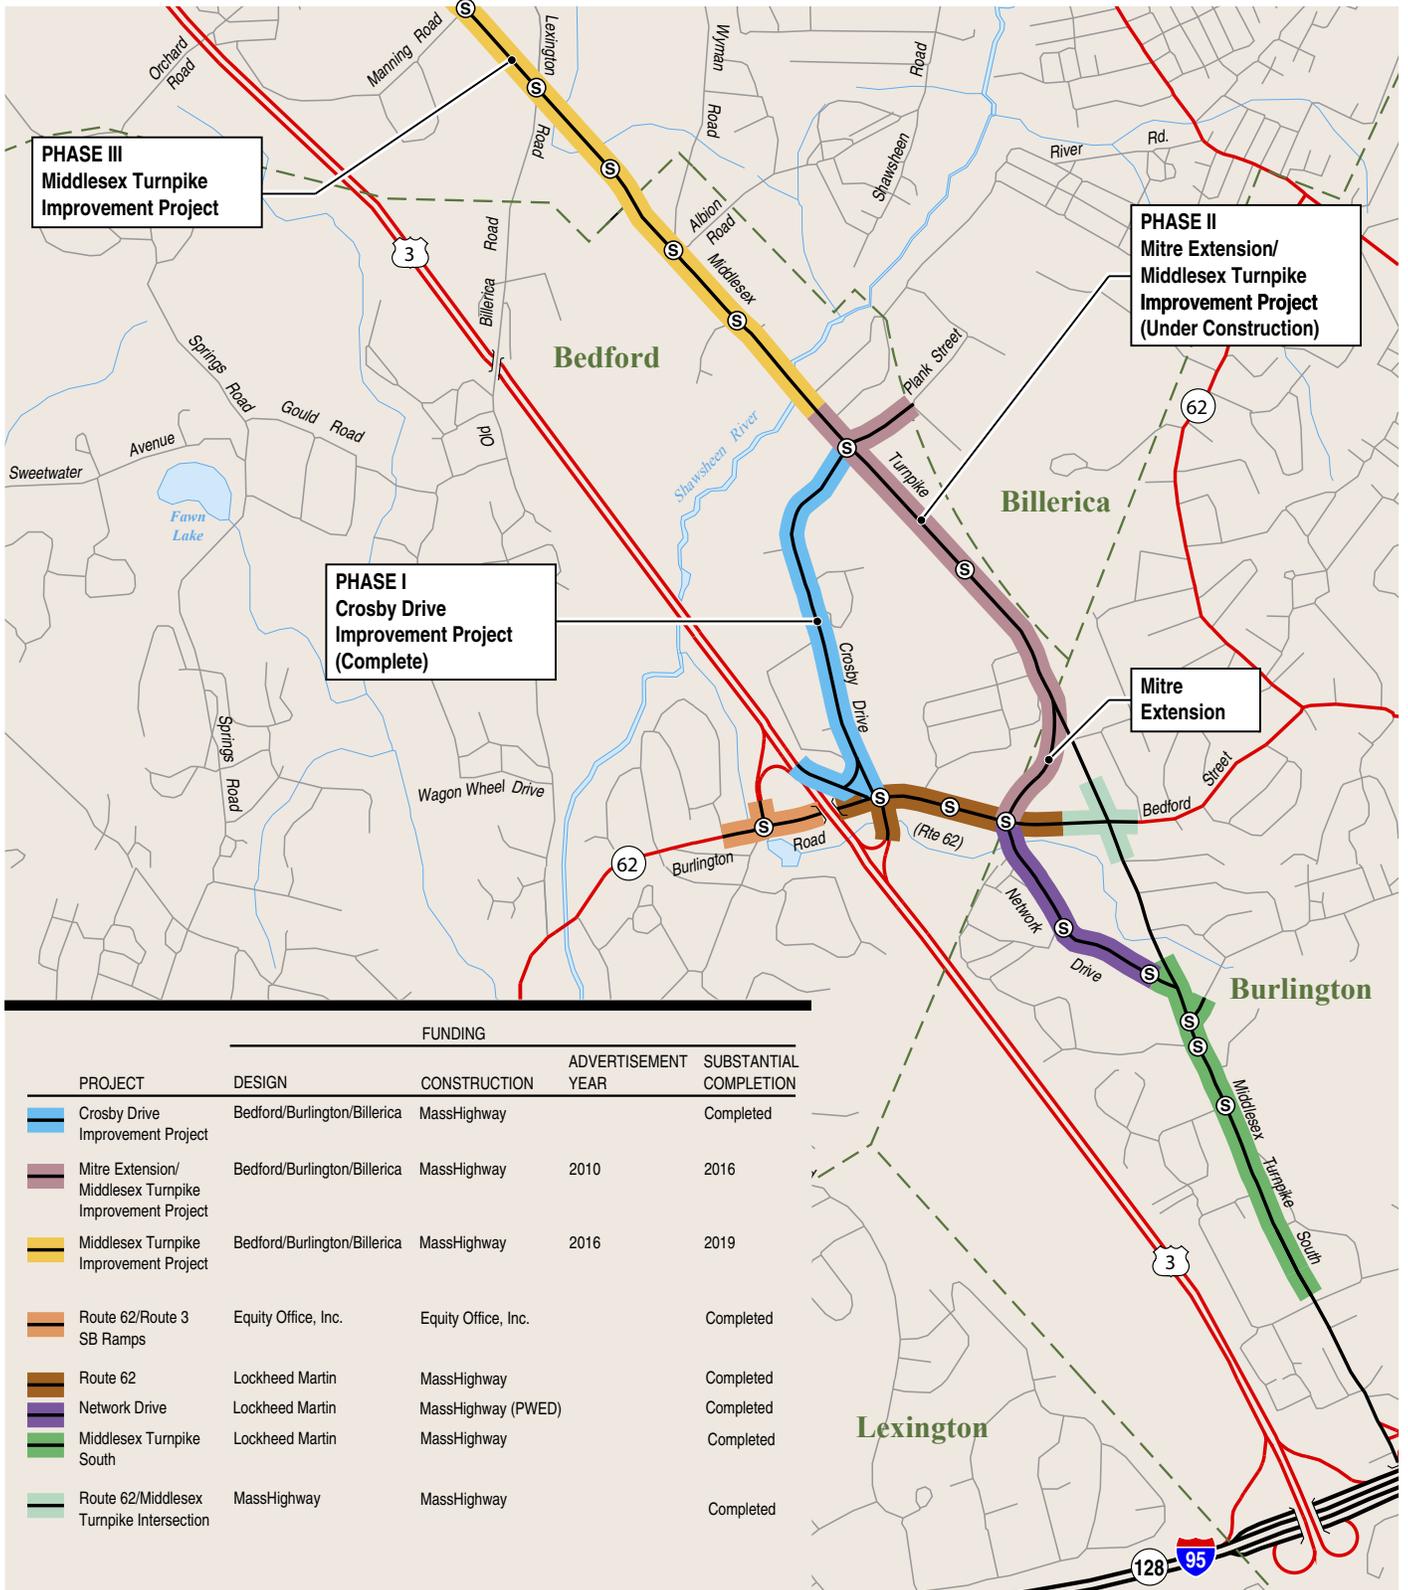

Project need: Meets state Healthy Transportation Policy

- Install sidewalks on both sides of Turnpike
- Install bike lanes on both sides of Turnpike
- 2 travel lanes in each direction
- Left turn lanes into major driveways
- Traffic signals installed at Oak Park, 900 Middlesex Tpke, Suburban Park Drive and Manning Road
- Traffic signals updated at Bedford Woods Driveway, Lexington Road
- Install full stormwater system with detention basins
- Replace Shawsheen River Culverts

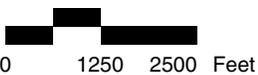

Total future roadway width (from back of sidewalk to back of sidewalk): 75 feet

Right of Way

- Town of Bedford took additional layout in 2003 for future improvements.
- Additional construction access and permanent easements needed for current design
- Town will reach out to each property owner to talk about the need for construction access and easements needed for slopes, drainage, guardrail, utility poles.
