

**Shawsheen Road
Page Road
Water Main Improvement Project**

The Bedford Selectmen recently awarded a contract to W. Walsh Company to clean and line the water mains on Shawsheen Road and Page Road west of Old Billerica Road. The cleaning and lining process scrapes off deposits within the water main and then applies a cement lining to the inside of the pipe to prohibit the future growth of rust.

In order to perform this work, the existing water main will be taken out of service and a temporary service pipe will be set above ground to serve abutting properties. Hydrant connections will be in place to maintain emergency fire protection throughout the project.

The project will start on Shawsheen Road at Page Road on June 2, 2014. Work hours will be Monday thru Friday, 7:00 am to 3:30 pm. The road will remain open at all times, although minor delays around the construction site should be expected. The work on Shawsheen Road should be complete by early August, when the project will continue onto Page Road.

Bedford Water Division personnel will be overseeing this project. Should you have any questions or need additional information, please contact the DPW at (781) 275-7605.
