As part of the on-line registration process you will be directed to a link to a registration form that you will be required to print and complete with your contact and health insurance information. While the vaccine is free, receiving insurance reimbursements enables the Health Department to perpetuate offering our vaccination clinics. You will need to bring one completed registration form for each person receiving a vaccination to the designated appointment time.

As a reminder, in accordance with the current Massachusetts COVID-19 Mask Requirements in clinical settings and the Bedford Indoor Mask Mandate, clinic participants will be required to wear a face covering while visiting the vaccination site. Please bring a copy of your ID and insurance cards to the clinic. Everyone receiving the COVID-19 vaccine will be required to wait at least 15 minutes after receiving the vaccination. We ask that everyone receiving a vaccination wear clothing that allows for easy access to their arm for vaccine administration. Participants in the November 20th clinic will be provided a link to register for their second dose of Pfizer's COVID-19 vaccine at a clinic to be scheduled for Saturday, December 11th from 9 am – 12 pm.
