

Household Hazardous Products Collection 2019 INFORMATION and SCHEDULE

Minuteman Household Hazardous Products Collection Facility
Lexington Landfill Site
60 Hartwell Avenue, Lexington, MA
9:00 am – 2:00 pm

1. **Registration**

Pre-registration is not required and the event is free of charge to Bedford residents. However, when you attend the event, you must show an ID or utility bill displaying your Bedford address.

2. **Collect Household Hazardous Products**

- Be efficient. Consolidate and combine with your neighbors to keep costs down and this program in place for future years.
- Please bring at least 10 gallons or 10 pounds of household hazardous waste.
- The cost to the Town is over \$50 per participant whether you have 1 gallon or 10 gallons.
- Only household quantities will be accepted under the household collection program.
- Other options are available for businesses. Contact the Board of Health at 781-275-6507.
- Latex paint is not accepted. See next page for latex paint disposal options.

3. **Choose a Collection Date**

- Saturday, April 20th
- Saturday, May 18th
- Saturday, June 15th
- Saturday, July 20th
- Saturday, August 17th
- SUNDAY, September 15th
- Saturday, October 19th
- Saturday, November 2nd

4. **Transportation Tips**

- NEVER MIX CHEMICALS, store different items in different boxes.
- Tighten caps and lids.
- Leave materials in original containers.
- Pad boxes with newspaper to minimize spills.
- Drive directly to center.
- NEVER SMOKE – STAY AWAY FROM FLAMES.

5. **Important Information**

- If you need further information about the Household Hazardous Products Collection Event, please contact the Board of Health at 781-275-6507.
- If you are unable to attend one of the above events, you may attend pay-as-you-go events held at the Clean Harbors Facility in Braintree. Contact them directly at 781-380-7177 for available dates and times.

Latex Paint (see below). Prescription Drugs – Disposal kiosk at the Police Department, 2 Mudge Way. Smoke detectors - may be disposed of with your regular trash or mailed to manufacturer.</p>

Latex Paint Disposal Options

Latex paint is not a hazardous product so it is not accepted at the hazardous product facility. If you bring it to the collection facility it will not be accepted and you will go home with it. In Bedford, fully solidified latex paint may be put in the regular curbside trash but liquid or semi-liquid paint is **NOT** accepted. Under no circumstances should paint in a liquid form be put into your regular trash because this material is compacted and will leak when being transported. To solidify latex paint for disposal in household trash, any of the following disposal options can be used:

- 1) Open the can and let it dry out, if there is just a small amount, and it can be done safely. Once paint is solidified, the cans can then be put in the regular trash with the lids off, or in a plastic trash bag, so that the collectors do not think it is hazardous.
- 2) Put kitty litter or purchased “waste latex paint hardener” product (available at many paint and hardware stores) into the can and then let the paint dry out to a solid form. The can of solidified paint may be put in a plastic bag and put in your curbside trash.
- 3) Line a box with newspaper and pour small amounts of paint into the box, letting each layer dry and solidify before adding another. The "painted" box can be put in your regular trash.
