

# REOPENING SMOOTHLY

## HELPFUL TIPS FOR CONSUMERS

### BE PATIENT

Many small businesses will be opening to an entirely different way of running their shops. Ask questions **BEFORE** arriving. Reach out directly if you have concerns or want to know safety protocols.

### BE KIND

Small businesses in your community are typically owned and operated by your neighbors and friends. Be kind, they have been asked to completely reinvent themselves and their business models.

### BE SENSIBLE

Wear a face covering and make sure that your nose and mouth are covered. Respect the rules and protocols that businesses have put in place. Stay home if you feel unwell.

### SHARE YOUR SUPPORT

Leave your favorite restaurants, businesses, organizations, and museums a good review. It is a challenging time and any positive words and reviews will go a long way.
